2025-2026 INVASIVE PLANT CONTROL PROGRAM (IPCP) CLAIM FORM

Submit to SARM by October 31, 2025 by email to Annette Ellert,
Agriculture Program Administrator at aellert@sarm.ca

PART 1 – PROHIBITED WEED SPECIES
(ONLY one species per claim form):

RM or First Nation: _____ **No.:** _____

Stakeholder Name: _____

PART 2 – HERBICIDE APPLICATION DETAILS to record Adjuvant separately, include it on the line below the main herbicide for each land location

LLD or GPS Coordinates	HERBICIDE /ADJUVANT APPLIED	ACRES TREATED	HERBICIDE/ ADJUVANT APPLICATION RATE/acre		TOTAL HERBICIDE /ADJUVANT USED	COST PER LITRE OR GRAM (from invoice)	TOTAL HERBICIDE/ ADJUVANT COST	TOTAL APPLICATION COST	TOTAL AMOUNT PAID (Herbicide + Application Cost)
			LITRES	GRAMS					
TOTALS									

2025 RM Appointed Weed Inspector or First Nation Land Manager:

Herbicide Applicator: (Individual named on the licence – company name not accepted)

Applicator Licence #:

PART 3 – CERTIFICATION

RM/First Nation: _____

Stakeholder: _____

Email: _____

Email: _____

Phone: _____

Phone: _____

DATE: _____

DATE: _____

SIGNATURE*: _____

SIGNATURE**: _____

(Administrator or Land Manager)

* I/We confirm, on behalf of the RM/First Nation named above, I/We have adhered to The Weed Control Act and The Pest Control Products Act and the program guidelines for the Invasive Plant Control Program. I/We understand any personal information in this claim is collected under the authority of, and is protected by, and subject to the provisions of The Freedom of Information and Protection of Privacy Act (FOIP Act) and the federal Privacy Act. The ministry may share this information with Agriculture and Agri-Food Canada and other third parties for the administration of the Sustainable CAP programming, for policy and program development and evaluation, and for research and statistical purposes.

** I/We confirm, as the stakeholder named above, I/We have adhered to The Weed Control Act and The Pest Control Products Act and the program guidelines for the Invasive Plant Control Program. I/We understand any personal information in this claim is collected under the authority of, and is protected by, and subject to the provisions of The Freedom of Information and Protection of Privacy Act (FOIP Act) and the federal Privacy Act. The ministry may share this information with Agriculture and Agri-Food Canada and other third parties for the administration of the Sustainable CAP programming, for policy and program development and evaluation, and for research and statistical purposes.

BEFORE SUBMITTING CLAIM ensure all supporting documents are included:

- Herbicide application records
- Invoices – herbicides and adjuvants
- Invoices – application

FOR SARM USE ONLY

The Invasive Plant Control Program - Requirement for Valid Pesticide Applicator Licences

In Saskatchewan, *The Pest Control Products (Saskatchewan) Act* requires any person purchasing and applying federally registered pesticides for hire or reward, to hold a valid Pesticide Applicator Licence.

Pesticides regulated under *The Pest Control Products (Canada and Saskatchewan) Act* include herbicides, fungicides, insecticides and vertebrate pest control products. A person must also hold a pesticide applicator licence if they are applying domestic class pesticides for hire or reward and/or if they employ a person that is paid a wage to apply pesticides as part of their job duties. Pesticide applicator licences are not transferable and are issued to an individual as named on the application form. A pesticide applicator must have a licence in their possession when applying herbicides. The following licence categories will be acceptable for use under the Invasive Plant Control Program in order of preference:

- **Industrial** - This authorizes the use of herbicides by ground application for controlling weeds: on industrial sites, including right-of-ways associated with roads, power lines, pipelines, railway, equipment yards and other non-crop areas with the exception of general maintenance applications to domestic lawns and gardens.
- **Agricultural** - this authorizes the application of herbicides by ground equipment to agricultural land.
- **Aquatic** - authorizes the use of herbicides by surface application, where permitted on the product label, for the control of weeds directly to water or to areas normally covered in water but left exposed during low water periods, including lakes, rivers, irrigation canals, ditches and dugouts.
- *NOTE: Permits are required from Saskatchewan Environment for the application of any pesticide within 50 meters of a water body not wholly contained within a parcel of land.*
- **Landscape** – this authorizes the application of herbicides to domestic areas (private lawns, gardens and parks).
- **Aerial** - authorizes the application of herbicides, where permitted on the product label, by aircraft. This can be to industrial or agricultural land.

Record Keeping:

Every holder of a pesticide applicator licence is responsible for keeping records of each operation they perform that involves pesticide use or application on forms acceptable to the Ministry of Agriculture and MUST include:

- a. the name of the person for whom the herbicide was applied;
- b. the location and size of the area where the herbicide was applied;
- c. the year, month, day and time at which the herbicide was applied;
- d. the purpose for which the herbicide was applied;
- e. the common product name of the herbicide applied and the registration number assigned to it pursuant to the federal *Pest Control Products Act*;
- f. the method of application;
- g. the rate of application of the herbicide applied;
- h. the quantity and method of disposal of empty herbicide containers;
- i. measures taken to respond to pesticide spills or of the clean-up of herbicide spills;
- j. weather data at the time the herbicide was applied; and
- k. every holder of a Pesticide Applicator licence must retain all records for a period of not less than three years from the date of the application.
